

PS-1202m

One Port Print Server

One Printer Port + One 10/100M Ethernet Port

Easy Installation and Configuration (Web-Based)

The print server's easy-to-use windows installation wizard allow for quick installation and setup. The print server can also be conveniently configured from any network client that support web-browsing.

Supports both Peer-to-Peer and Server-based printing

LAN clients can connect directly with the print server to execute printing jobs (Peer-to-Peer printing); or clients can send print jobs first to a server (queuing jobs) and allow the server to connect with the print server to execute the printing jobs (Server-based printing).

Supports Windows 95/98/Me/NT/2000/XP, NetWare (3.x above) and Unix/Linux environments

The print server and its drivers are compatible with all major operating systems used today

Supports DHCP Server/Client

The printer server can act as a DHCP server, allowing your LAN clients to automatically obtain an IP address or it can act as a DHCP client allowing for easy integration to your existing network

Fault-Tolerant Firmware Upgrades

Users need not worry about errors occurring in the midst of an upgrade, thus preventing the print server from operating. The print server's fault-tolerant upgrade function allows for re-upgrades should problems occur during the initial upgrade.

Ordering Information

PS-1202m 1 Printer Port 10/100Mbps Print Server Server
(mini size) / Attach Directly

Features :

Provides one 10/100Mbps auto-sensing port that complies with IEEE 802. and 802.3u standards
Provides one printer port that can attach directly to a printer's parallel port
Supports TCP/IP, IPX/SPX, NetBEUI network protocols
Supports LPR, Email Printing, Raw Printing, Unix Logical Printer
Supports Peer-to-Peer Printing (TCP/IP/IPX/NetBEUI)
Supports Server-based printing (Novell NetWare and Windows)
Compatible with all major operating systems (Windows 95/98/Me/NT/2000/XP, NetWare (3.x above) and Unix/Linux)
Supports DHCP (both client and server) protocol
Efficient print job transfer using DMA (Direct Memory Access).
Supports bi-directional capability, able to get information from printers
Supports Web-based management, Windows Configuration Utility, SNMP Protocol
Provides easy-to-use installation, setup and diagnostic programs.
Provides flash memory for convenient software upgrades.
Supports Fault-Tolerant Upgrade capability

Specifications:

Product	PS-1202m
Standards	IEEE 802.3 IEEE 802.3u
Printer Port	Centronic x 1
LAN Port	10/100M UTP (RJ45) x 1
Power	6VDC/1A
Dimensions	25(H) x 57(W) x 110(D) mm
Weight	70g
Temperature	10-55 °C
Humidity	0-90%(Noncondensing)
Certification	FCC Class B & CE Mark
